

# Board and Executive level cyber resilience training

The release of the Australian Government's 2020 cyber security strategy calls for greater accountability at Board level, whilst requiring leadership to build a cyber skilled workforce.

To ensure businesses continue to grow sustainably, boards and directors must address cyber challenges, opportunities and risks alongside other threats. Cyber security is a primary business risk that demands a comprehensive leadership focus.

## Who should engage?

Board members, executives and senior managers.

## What we target

In person onsite, remote by video or out of hours.

## Why CyberCX Training?

Boards who take cyber security risk seriously are uniquely positioned to help manage cyber security risk. CyberCX has developed training that addresses the specific needs of Boards, and also the executive leadership of the business, to operate a cyber resilient organisation.

Our training addresses the requirements of regulators such as Australian Securities & Investments Commission (ASIC) and Australian Prudential Regulation Authority (APRA).

We cover the current threat landscape, cyber objectives, compliance, obligations and changes, and your responsibilities in managing cyber risk. This training delivers the essential knowledge, skills and understanding to equip senior executive with the tools they need to meet current and future regulation and legislation.

## Organisational benefits:

This training workshop will enable participants to:

- ▶ Gain an understanding of the Australian 2020 Cyber Strategy and how it relates to you.
- ▶ Understand the roles and responsibilities of the Board in the context of cyber security risks.
- ▶ Understand the cyber threat landscape.
- ▶ Equip executives with the knowledge required to lead and make informed cyber risk decisions.
- ▶ Define a strategy to deliver cyber resilience.
- ▶ Grow a cyber skilled workforce.

### For Boards:

- ▶ We assist the Board in understanding the cyber security risks faced by the organisation, how current efforts are addressing those risks, and how to interpret the information reported to them through Board updates.
- ▶ The Board are ultimately responsible and accountable for the organisation's cyber security and CyberCX's expert insight will help the Board to be more effective in discharging this responsibility.

### For Executives:

- ▶ We provide context to cyber resilience for leaders from a non cyber background.
- ▶ We develop your situational awareness analytical skills to ensure you grow a cyber skilled workforce.
- ▶ We enable you to evaluate the maturity of your incident management function, specifically in relation to cyber incidents such as hacking and data loss.

Our training offerings are contemporary and exciting using the most advanced, industry proven techniques for accelerated learning development.

### CyberCX's focused cyber resilience workshops include:

- ▶ Cyber crisis simulations – moderated and self-paced, with score card reporting and learning development needs identification
- ▶ Gamified risk modelling and attack analysis
- ▶ Cyber security war games, where we explore cyber incidents and data breaches

### Our training will help you:

- ▶ Understand cyber security risks language
- ▶ Develop risk mitigation strategies

## Training and Education that you can rely on

- ▶ Training delivered by our industry leading practitioners for senior executives and Board members.
- ▶ Knowledge of what is needed to navigate the cyber landscape for non cyber individuals.
- ▶ Expertise delivering context-rich training and education across industry. Whether that be banking and finance, higher education, critical national infrastructure, retail, telecommunications government, military or the intelligence sectors.
- ▶ Solutions purpose-built to deliver results by helping acquire, retain, develop and enhance knowledge, skills and understanding.
- ▶ Highly flexible options and delivery methods designed to deliver the right training in the right way that is highly relevant and effective for the target audience.
- ▶ Highly qualified and globally recognised cyber security trainers and experts.
- ▶ Dedicated program managers to coordinate planning, training activities and improvement tracking.
